EDUCATION

University of Washington

September 2023 - Present

Ph.D. Computer Science & Engineering

GPA: 4.0/4.0

University of California, Berkeley

August 2019 - May 2023

B.A. Computer Science

GPA: 4.0/4.0

Awards: Regents' and Chancellor's Scholar, top < 2\% incoming class; National Merit Scholar

EXPERIENCE

Graduate Researcher, UW Robotics — Advised by Abhishek Gupta

September 2023 - Present

Sim-to-real transfer and real-world finetuning for dexterous robotic manipulation.

Undergraduate Researcher, Berkeley AI Research — Advised by Sergey Levine

July 2020 - February 2023

Offline goal-conditioned reinforcement learning and finetuning with affordance models for real-world robotic control.

Machine Learning Engineer Intern, Ambi Robotics

January 2022 - May 2022

Spearheaded training Ambi Robotics's deep learning models on real-world production data, upgrading their computer vision system to use 3D neural networks, and creating rigorous A/B testing protocols and statistical analyses.

Software Engineer Intern, UiPath

June 2021 - August 2021

Pushed over 30 Git commits to production on Insights team. Worked with Snowflake/SQL, Kubernetes, and Docker.
