## EDUCATION

---

### University of Washington

2023–

Ph.D. Computer Science & Engineering

*Awards:* NSF Graduate Research Fellow, ~ 10% selection rate

### University of California, Berkeley

2019–2023

B.A. Computer Science, GPA: 4.0/4.0

*Awards:* Regents' and Chancellor's Scholar, top <2% incoming class; National Merit Scholar

## SELECTED PUBLICATIONS

---

### OmniReset: Emergent Dexterity Via Diverse Resets and Large-Scale Reinforcement Learning

Patrick Yin\*, T Westenbroek\*, O Zhang, J Tran, I Dagnino, E Shilamkar, N Tiapo, S Bagaria, X Liu, G Mullins, A Kolobov, A Gupta

*International Conference on Learning Representations (ICLR), 2026*

### SGFT: Rapidly Adapting Policies to the Real-World via Simulation-Guided Fine-Tuning

Patrick Yin\*, T Westenbroek\*, S Bagaria, K Huang, C Cheng, A Kolobov, A Gupta

*International Conference on Learning Representations (ICLR), 2025*

## OTHER PUBLICATIONS

---

### Simulation Distillation: Pretraining World Models in Simulation for Rapid Real-World Adaptation

J Levy\*, T Westenbroek\*, K Huang, F Palafox, Patrick Yin, S Omidshafiei, D Kim, A Gupta, D Fridovich-Keil

*Robotics: Science and Systems (RSS), 2026*

### DROID: A Large-Scale In-the-Wild Robot Manipulation Dataset

A Khazatsky\*, K Pertsch\*, ..., Patrick Yin, et al.

*Robotics: Science and Systems (RSS), 2024*

### ASID: Active Exploration for System Identification and Reconstruction in Robotic Manipulation

M Memmel, C Zhu, A Wagenmaker, Patrick Yin, D Fox, A Gupta

*International Conference on Learning Representations (ICLR), 2024 (Oral Presentation)*

### Stabilizing Contrastive RL: Techniques for Robotic Goal Reaching from Offline Data

C Zheng, B Eysenbach, H Walke, Patrick Yin, K Fang, R Salakhutdinov, S Levine

*International Conference on Learning Representations (ICLR), 2024 (Spotlight Talk)*

### Open X-Embodiment: Robotic Learning Datasets and RT-X Models

Open X-Embodiment Collaboration, ..., Patrick Yin, et al.

*IEEE International Conference on Robotics and Automation (ICRA), 2024 (Best Paper)*

### Generalization with Lossy Affordances: Leveraging Broad Offline Data for Learning Visuomotor Tasks

K Fang, Patrick Yin, A Nair, H Walke, G Yan, S Levine

*Conference on Robot Learning (CoRL), 2022 (Oral Presentation)*

### Planning to Practice: Efficient Online Fine-Tuning by Composing Goals in Latent Space

K Fang\*, Patrick Yin\*, A Nair, S Levine

*IEEE/RSJ International Conference on Intelligent Robots and Systems (IROS), 2022*

### Bisimulation Makes Analogies in Goal-Conditioned Reinforcement Learning

P Hansen-Estruch, A Zhang, A Nair, Patrick Yin, S Levine

*International Conference on Machine Learning (ICML), 2022*

## EXPERIENCE

---

|                                                                                                                                                                                                                                      |           |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------|
| <b>Research Intern</b> , NVIDIA — <i>Advised by Nathan Ratliff, Ankur Handa, Karl Van Wyk</i><br>Working on reinforcement learning and sim2real transfer for dexterous hands.                                                        | 2026–     |
| <b>Graduate Researcher</b> , UW Robotics — <i>Advised by Abhishek Gupta</i><br>Working on reinforcement learning and sim2real transfer for dexterous robot manipulation.                                                             | 2023–     |
| <b>Student Researcher</b> , Microsoft Research — <i>Advised by Andrey Kolobov</i>                                                                                                                                                    | 2025–2026 |
| <b>Research Intern</b> , Microsoft Research<br>Worked on reinforcement learning and sim2real transfer for dexterous robot manipulation.                                                                                              | 2025      |
| <b>Undergrad Researcher</b> , Berkeley AI Research — <i>Advised by Sergey Levine, Kuan Fang, Ashvin Nair</i><br>Published 4 papers on offline goal-conditioned reinforcement learning and finetuning for real-world robotic control. | 2020–2023 |
| <b>Machine Learning Engineer Intern</b> , Ambi Robotics — <i>Advised by Yi Li</i><br>Spearheaded training deep learning models on real-world production data and training 3D neural networks.                                        | 2022      |
| <b>Software Engineer Intern</b> , UiPath<br>Pushed over 30 Git commits to production on Insights team working with Snowflake/SQL, Kubernetes, and Docker.                                                                            | 2021      |

## AWARDS

---

|                                                                                                     |      |
|-----------------------------------------------------------------------------------------------------|------|
| <b>NSF Graduate Research Fellowship.</b> ~ 10% selection rate.                                      | 2025 |
| <b>Highest Distinction in General Scholarship, L&amp;S CS.</b> Top ~ 3% of graduating class at Cal. | 2023 |
| <b>Regents' and Chancellor's Scholar.</b> Top < 2% of incoming class at Cal.                        | 2019 |
| <b>National Merit Scholar.</b> Top 0.02% of high school seniors in US.                              | 2019 |

## MENTORSHIP

---

|                                                                                                          |
|----------------------------------------------------------------------------------------------------------|
| <b>Yanda Bao</b> — Undergrad at UW                                                                       |
| <b>Joshua Tran</b> — BS/MS at UW                                                                         |
| <b>Ignacio Dagnino</b> — High School Student at Skyline High School (now Engineer at a Robotics Startup) |
| <b>Simran Bagaria</b> — BS/MS at UW (now Robotics Research Engineer at Microsoft Research)               |

## PROFESSIONAL SERVICE

---

|                                                                                                                                                                                                   |                                |
